## Doctors' Prescription for Eczema

The most advanced physicians of this country and Europe are now prescribing a wash of wintergreen, thymol and other soothing and healing ingredients for the cure of eczema, psoriasis and all other forms of skin trouble. This compound is known as the D. D. D. Prescription. Dr. Holmes, the well-known skin specialist, writes: "I am convinced that the D. D. D. Prescription is as much a specific for eczema as is quinine for malaria. We have been prescribing the D. D. D. remedy for years."

I myself, under the D. D. D. Prescription for eczema, and absolutely guarantee that it will take away the itch the instant you apply it.

If you will call at my store I will be glad to let you have a \$1.00 bottle on the guarantee that it will cost you nothing unless you find it does the work, and you decide. For that matter, a trial bottle for 25 cents ought to be enough absolutely to prove the merits of the remedy.

Drop into my store, anyway, and as I have seen a great many cases of skin trouble, I will give you free a pamphlet giving directions for bathing, diet, etc., for all kinds of skin trouble. Ask for the D. D. D. pamphlet, "Cause and Cure of Skin Disease." Get posted on this wonderful remedy to-day.

The concert given by the Nordland girls, under the auspices of the Village Improvement society, was an entertainment of high merit and a credit to the society. Each member of the company was an artist in his or her line of entertaining and the enthusiastic manner in which they were received by the good-sized audience in attendance, proved that the talent was appreciated. We rarely have the pleasure of listening to such high class talent in our own town and the society are to be congratulated on the success of this first number of the course which they have arranged to give during the coming season. The next attraction will be Mildred Sheldon Bass, a reader of plays and an interpreter of the best literature. Miss Bass comes very highly recommended by all who have seen her and we have every reason to believe that this number will fully equal the first one in point of excellence and entertaining qualities and perhaps excel in educational value. It is hoped that the community and the general public will appreciate the character and value of these entertainments and not allow the opportunity of attending them to pass by unimproved. The expense of putting on this course will be just as great if the average attendance is 50 as it will be with an average attendance of 250. The tickets for the remaining four numbers of the course are only \$1.00 for reserved seats. The people of Marshfield are urged to support this course loyally, as it ought to be supported on its merits. This is not charity. You receive full value for money expended. Identify yourself with the forward movement for the bettering of conditions in our community by availing yourself of one of these season tickets before the next date, November 18.

### TWO PITCH NO-HIT GAMES.

Walsh and Wood Do Stunt in American League.

Although there have been two American league pitchers who have written their names this year in the book of fame that contains only games in which a team has been held without a hit, the contests of the season have produced no such number of low-hit performances as in other recent years, says the Springfield Republican. Showing the difficulty experienced by pitchers in holding teams to few safeties, there have been only three one-hit games this year, against 13 of them last year; only 13 two-hit games in 1911, against 25 of them in 1910, and only 23 games in which a team was held to three hits, whereas

there were 42 such games last season. And last year was not at all remarkable for its low-hit performances.

The names added to the no-hit list this year are new ones belonging to "Ed" Walsh of the White Sox and to "Joe" Wood of the Red Sox. In spite of his remarkable work on the slab for years, Walsh never had shut a team out without a hit until near the end of this season. On August 27, "Big Ed" blanked Boston without a safe hit and came within one man of the world's record. Early in the game one Red Sox got a base on balls and no one else got to first base. Less than a fortnight before, Walsh shut out Detroit with only one hit in nine innings, and he almost stabbed that hit himself. Wood pitched his no-hit game against St. Louis on July 29. Twice this year American league pitchers have allowed only two hits in

nine innings and have been beaten. Ford and Brockett, between them, held St. Louis to two hits and the Browns won, 6 to 1. Cashion was beaten, 1 to 0, by the White Sox, although they made only two safeties off him. There have been four games in which a pitcher was beaten with only three hits chalked down against him. "Jim" Scott had that experience against Detroit on September 9. Wood held New York to one hit in eight innings, and Johnson of Washington allowed Philadelphia a lone hit in six innings, but these do not qualify for the records.
